With the Right Tool and a Little Imagination You Can Do Anything (John B. Goldhamer)

Imagination Is More Important Than Knowledge (Albert Einstein)

“I believe in intuition and inspiration. ... At times I feel certain I am right while not knowing the reason. When the eclipse of 1919 confirmed my intuition, I was not in the least surprised. In fact I would have been astonished had it turned out otherwise. *Imagination is more important than knowledge. For knowledge is limited, whereas imagination embraces the entire world, stimulating progress, giving birth to evolution. It is, strictly speaking, a real factor in scientific research.*”

Imagination is Stronger than Knowledge and Dreams are More Powerful than Facts

“*I believe that imagination is stronger than knowledge. That myth is more potent than history. That dreams are more powerful than facts. That hope, always triumphs over experience. That laughter is the only cure for grief. And I believe that love is stronger than death.*”
